

# SeraSpot®

## Microspot array for efficient multiplex diagnostics

### SeraSpot® meets various laboratory demands

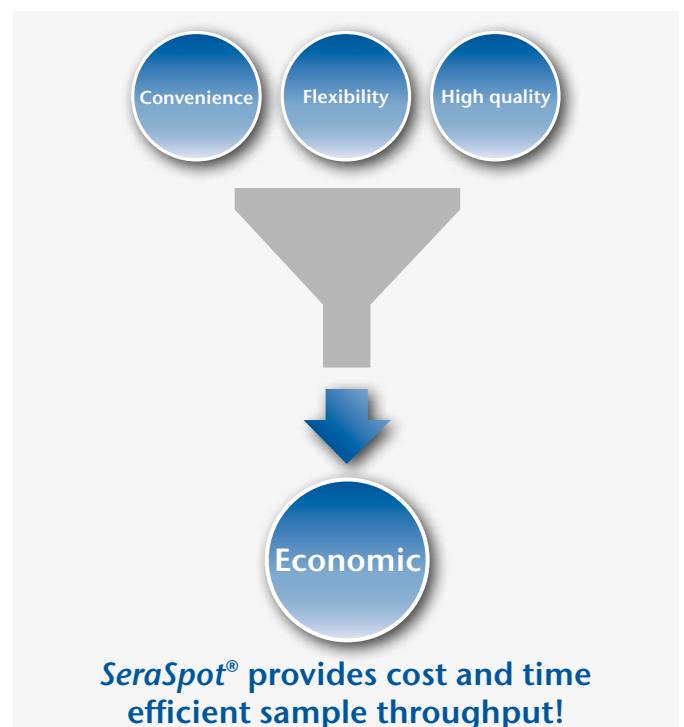

- **Combinable** – simultaneous processing of different microspot arrays
- **Flexible** – different scanner and test package sizes available
- **Automatable** – for use on common ELISA processors

### SeraSpot® meets high quality standards

- **High-value** – high sensitivity and specificity
- **Reliable** – built-in controls and color coded arrays
- **Robust** – stable color complex formation

### SeraSpot® meets user requirements

- **Adjustable** – fits into your present workflow
- **Convenient** – ready-to-use reagents and universal test procedure
- **Simple** – intuitive software for non-biased evaluation

## SeraSpot® meets ideal antigen selection

...for the detection of autoimmune disease
